

**TEMPLATE COVER IMAGE
SUBMISSION GUIDELINES**

This guide is for image submissions for use with BookSurge’s Cover Design Templates. If your book’s cover falls into a category other than this, please contact your account manager for the appropriate submission guidelines or next steps. For more information about working with images see our [Digital Image Guide](http://www.booksurgepages.com/Downloads/digital_image_guide.pdf), which can be downloaded at www.booksurgepages.com/Downloads/digital_image_guide.pdf.

Image Resolution

All images should be submitted at 300 dpi or higher.

Color Mode or Grayscale

To ensure the highest quality printing, submit your images in CMYK color mode rather than RGB if you wish for them to appear in full-color on the final printed version. Submit your images in grayscale, not in color if you wish for them to appear in black and white on the final printed version.

Submitting Your Images

Your images should be submitted at the same time you submit your manuscript. Please save your images in a JPEG or TIFF format and upload your file to the “Cover Art” field in the “Upload Book Files” section of GPS.
